

# You've got 15 minutes to evacuate

## What will you take ?

If you've been asked to evacuate, don't wait to be asked a second time. Your life is worth more than all your possessions.

First - and only if you have the luxury of time - take photos or videos of each of your rooms. This way, if the worst happens, you will have something to show to your insurance company and you will have a keepsake.

### Personal

- Address/Phone book w/#'s
